CAREER SUMMARY

Senior Product Manager with an engineering background (**NIT Jalandhar**) and a track record of owning revenue, not just roadmaps. At **ReflexPrep**, grew revenue **₹1.35 Cr to ₹3.1 Cr (+130% YoY)** and MAU **20K to 60K+** by leading product strategy, pricing, payments, growth and AI automation across Web, Android and iOS. Equally comfortable going deep with engineers on APIs, payments and data, and with the business on CAC, conversion and retention.

EDUCATION

National Institute of Technology, Jalandhar

Jun 2016 – May 2020

Bachelor of Technology (B.Tech)

CGPA: 7.84

WORK EXPERIENCE

- ReflexPrep Private Limited** Remote
Senior Product Manager Feb 2025 – Present
 - Scaled company revenue from **₹1.35 Cr to ₹3.1 Cr (+130% YoY)**, with **₹5 Cr projected for FY26-27**, by driving product strategy, monetization, pricing, growth and retention initiatives.
 - Owned end-to-end product and roadmap for a test-prep platform (**20K to 60K+ MAU**) across **Web, Android and iOS**, leading a **cross-functional team of 5 (3 engineers)** from discovery and PRDs to development, QA and launch.
 - Scaled monthly paid users **2.5K to 7K (+180%)** and leads **80 to 350/day (+338%)**, improving free-trial activation **20% to 70%** and cutting CAC **₹712 to ₹536 (-25%)** through funnel analytics, experimentation and performance marketing.
 - Re-architected the payment stack from **Paytm to Razorpay** with fallback and failure-recovery flows, lifting payment conversion **27% to 50%** and reducing revenue leakage from failed or abandoned transactions.
 - Built and launched the **FMGE vertical 0-to-1** (Apr 2026) across product, tech, onboarding, payments, QBank and GTM; also launched **HAMMER** and **TROCAR** as engagement-led revenue streams with **700** and **400 participants** respectively.
 - Deployed **AI-powered support and automation** across WhatsApp, Instagram, Email and Web, cutting support cost **₹89K to ₹15K/month (-83%)** and SLA from **1-2 days to ~30 min**, and lifting renewals **6% to 40%** via behavior-based CRM journeys.
- HobFit Technologies Private Limited** Remote
Product Manager (Freelance) Aug 2025 – Nov 2025
 - Owned product, analytics and growth for a women's wellness platform with **500K+ users across 5+ countries**.
 - Redesigned the home screen, onboarding and checkout journey, increasing conversion from **~2% to ~10% (+400%)** by removing key purchase frictions.
 - Built product analytics and lifecycle engagement across app, push, WhatsApp and email; led release management across **Web, Android and iOS** and set up **Crashlytics** production monitoring.
- Nexteir Technologies Private Limited** Remote
Product Manager (Freelance) May 2025 – Jul 2025
 - Took **2 products from prototype to production within 3 months**, owning discovery, PRDs, UX, engineering, QA and deployment across **10+ core flows**, and defined the post-launch **engagement, conversion and adoption KPIs**.
- Apisero Global Integration Solutions Private Limited** Noida, India
Software Engineer | Client: Metronet Aug 2021 – Jul 2022
 - Automated Salesforce/SQL lead workflows, cutting **manual effort 45%** and response time **30%**; built predictive sales models and KPI dashboards, improving **forecast accuracy 20%** and reducing **churn 15%**.
- DXC Technology** Gurugram, India
Associate Software Engineer | Client: Rolls-Royce Jun 2020 – Jul 2021
 - Optimized **40K & 17K-node HPC clusters**, reducing **job response time ~18%** and improving **query performance 20%+**; automated monitoring and alerting, cutting **manual intervention 40%** and raising **uptime 15%**.
